

FY2010 SHSP and SLETPP Grants: Reference Guide

Overview

Frequently Asked Question from Grantees to DHSES:

"Why is filling out homeland security grant applications so difficult and time consuming? For each project, I have to indicate how it links to an Investment Justification (that changes from year to year), a Target Capability (37 to choose from), a Grants and Training (G&T) Code (whatever that is) and, of course, a Goal in the State Homeland Security Strategy – I'm wearing 5 different hats within my County already and I don't have time to spend making all of these linkages to different State/Federal documents!"

Answer: DHSES understands that applying for homeland security grants can be a cumbersome process because of the extensive linkages that must be made between your project(s) and different State/Federal documents. As a result of your feedback during the 2010 Regional Workshops (and other forums), DHSES has developed this "Reference Guide" to support and streamline your application process for FY2010 SHSP and SLETPP grants. This Reference Guide highlights specific project areas that support the State Homeland Security Strategy and our FY2010 Investment Justifications and that are clearly linked back to other federal preparedness documents (e.g. Target Capability List). The use of this Reference Guide should help you in completing your application for homeland security grant funds.

Directions

1. Identify a project your jurisdiction would like to address with homeland security funds.
2. Identify which Strategy Goal most closely aligns with your proposed project - The Reference Guide is organized by Strategy Goal, beginning with Goal 1 (CBRNE Detection, Response, and Decontamination) and ending with Goal 10 (Cyber Security). The complete Strategy can be viewed online at: http://www.security.state.ny.us/publications/2009_NYS_Homeland_Security_Strategy.pdf.
3. Review the Project Areas associated with this Goal and make the connection between your proposed project and the defined Project Areas associated with each Investment.
4. When entering your Project details in E-Grants, use the Reference Guide to fill in the appropriate linkages that are required. The G&T Code, Investment Justification, Target Capability Link, and Strategy Objective Links are addressed in the "Workplan" Tab in E-Grants, while the National Priority and Strategy Goal Links are addressed in the "Funding Allocation" Tab in E-Grants.
5. Repeat this process as necessary until your plan for your 2010 SHSP and/or SLETPP grants is complete.

Example: Empire County would like to use their SHSP funds to purchase Information Technology (IT) equipment to enhance their Emergency Operations Center (EOC). After reviewing the Goals in the State Strategy, Goal 5 (Enhance Incident Management and Response Capabilities) appears to be the closest fit. Empire County scrolls down to the Goal 5 area in the Reference Guide and finds EOCs as a defined "Project Area" under this Goal. After making this connection, Empire County is able to ascertain what linkages should be made when entering this project into E-Grants: G&T Code (#4), Investment Justification (Emergency Management), Target Capability (EOC Management), National Priority (Implement NIMS/NRF), and Strategy Objective (5.17).

***Questions about this Reference Guide? - Contact DHSES's Grants Staff at grants@security.state.ny.us or reach directly to your Program Representative in the Contracts Unit.**

Definitions of Key Documents Addressed in Reference Guide

- 1. State Homeland Security Strategy:** This Strategy provides a comprehensive framework to guide, organize and unify homeland security efforts in New York State. The Strategy contains 10 Goals and over 100 related objectives. The complete Strategy can be accessed online at: http://www.security.state.ny.us/publications/2009_NYS_Homeland_Security_Strategy.pdf.
- 2. Grants and Training (G&T) Codes:** The federal Department of Homeland Security (DHS) utilizes standardized G&T codes across the country to better understand how federal homeland security dollars are supporting specific priorities. A complete list of G&T codes can be accessed in the SHSP/SLETPP Program Guidance released by DHSES.
- 3. Investment Justifications:** Each year, New York State is required to develop detailed project plans, called Investment Justifications, in order to apply for federal homeland security funding. Each IJ contains one or more related projects underneath it and these "Project Areas" are outlined in detail in this Reference Guide. All of your SHSP and SLETPP awards must be spent in support of one or more of our IJs and a complete list of IJs can be found in the SHSP/SLETPP Program Guidance.
- 4. Target Capability List (TCL):** The TCL contains 37 different capabilities (e.g. Communications, Responder Safety and Health, etc.) that are used to accomplish homeland security missions. Each capability contains elements of planning, organization, equipment, training, and exercises. The complete TCL can be accessed online at: <http://www.fema.gov/pdf/government/training/tcl.pdf>.
- 5. National Priorities:** The National Priorities were defined by the federal Department of Homeland Security (DHS) to accompany the TCL. There are 8 National Priorities and a complete list can be accessed in the SHSP/SLETPP Program Guidance.

***Note: The SHSP and SLETPP columns included in the chart below provide an approximate breakdown of which projects are allowable under the SHSP and/or SLETPP grants. As a reminder, all SLETPP grant funds must be used in support of law enforcement prevention-oriented planning, organization, training, exercise, and equipment acquisition activities.**

Goal 1: Strengthen CBRNE Detection, Response, and Decontamination Capabilities

Project Area	SHSP	SLETPP	G&T Code Link	Investment Justification Link	Target Capability Link	National Priority Link	Strategy Link
Personal Protective Equipment (PPE): Purchase of allowable PPE for first responders.	Yes	Yes	#30	WMD/HazMat Response and Decontamination	Responder Safety and Health	Strengthen CBRNE Detection, Response, and Decontamination Capabilities	1.3
WMD Trailers and Equipment Maintenance: Purchase of equipment upgrades to enhance WMD Trailers previously issued by the NYS Office of Homeland Security. Funds can also be used to maintain equipment that was purchased with federal homeland security grants.	Yes	Yes	#30	WMD/HazMat Response and Decontamination	WMD/HazMat Response and Decontamination	Strengthen CBRNE Detection, Response, and Decontamination Capabilities	1.8
HazMat Team Support: Allowable Planning, Training, Exercise and Equipment Acquisition activities for New York's HazMat Teams. Note: Grantees using SHSP/SLETPP funding for HazMat Teams are encouraged to explore the development of regional HazMat response capabilities and to coordinate with regional partnerships funded under the 2009 HazMat Grant Program (if located in your area).	Yes	Yes	#30	WMD/HazMat Response and Decontamination	WMD/HazMat Response and Decontamination	Strengthen CBRNE Detection, Response, and Decontamination Capabilities	1.10
Bomb Squad Support: Allowable Planning, Training, Exercise, Organizational (SLETPP) and Equipment Acquisition activities to support New York's 12 FBI-certified local bomb squads. Note: SHSP/SLETPP support for Bomb Squads should be coordinated with activities being conducted under the targeted Bomb Squad Initiative grant.	Yes	Yes	#18	Counter-Terrorism and Law Enforcement	Explosive Device Response Operations	Strengthen CBRNE Detection, Response, and Decontamination Capabilities	1.11
Radiological/Nuclear Detection Activities: Allowable Planning, Training, Organizational (SLETPP), and Equipment Acquisition activities. Note: Commercial Vehicle Enforcement Units should be included in these activities and the Counter-Terrorism Zone (CTZ) structure should be leveraged to the greatest extent possible.	Yes	Yes	#1	Radiological and Nuclear Detection and Interdiction	CBRNE Detection	Strengthen CBRNE Detection, Response, and Decontamination Capabilities	1.14

Goal 2: Protect Critical Infrastructure and Key Resources

Project Area	SHSP	SLETPP	G&T Code Link	Investment Justification Link	Target Capability Link	National Priority Link	Strategy Link
Automated Critical Asset Management System (ACAMS): Adopt ACAMS as a standard methodology to identify and prioritize critical infrastructure and key resources (planning, equipment, and training).	Yes	Yes	#12	Critical Infrastructure Protection	Critical Infrastructure Protection	Implement the NIPP	2.2
Risk Assessments and Target Hardening: Conduct risk assessments of Critical Infrastructure and Key Resource (CIKR) sites and procure/install prevention/protection equipment (cameras, bollards, etc.) to mitigate identified risks.	Yes	Yes	#12	Critical Infrastructure Protection	Critical Infrastructure Protection	Implement the NIPP	2.7 (Assessments), 2.10 (Equipment)
Operational Overtime: Use of SLETPP funding to support operational overtime to protect CIKR sites (Note: DHS approval is required in advance to use funds for this purpose).	No	Yes	#12	Critical Infrastructure Protection	Critical Infrastructure Protection	Implement the NIPP	2.10
Geographic Information System (GIS): Development or enhancement of GIS and datasets, including aerial photography (e.g. ortho imagery and oblique imagery), elevation, and others consistent with the NYS GIS Strategic Plan (available online at: http://www.nysgis.state.ny.us/coordinationprogram/straplan/)	Yes	Yes	#28	Critical Infrastructure Protection	Critical Infrastructure Protection	Implement the NIPP	2.5

Goal 3: Strengthen Information Sharing, Collaboration, and Intelligence Analysis

Project Area	SHSP	SLETPP	G&T Code Link	Investment Justification Link	Target Capability Link	National Priority Link	Strategy Objective Link
Overtime Costs: Overtime Costs associated with information, investigative, and information-sharing activities. Note: Allowable costs are limited to OT associated with federally-requested participation in eligible fusion activities, including Joint Terrorism Task Forces (JTTFs), Area Maritime Security Committees (AMSCs), and Integrated Border Enforcement Teams (IBETs). Please contact your Program Representative at DHSES if you are considering using 2010 SLETPP funds for this purpose.	No	Yes	#1	Information-Sharing and Dissemination	Information Gathering and Recognition of Indicators and Warnings	Strengthen Information-Sharing and Collaboration	3.2
Connectivity to the NYSIC: Electronic connectivity to the New York State Intelligence Center (NYSIC) approved mechanism.	Yes	Yes	#34	Information-Sharing and Dissemination	Intelligence and Information-Sharing and Dissemination	Strengthen Information-Sharing and Collaboration	3.3
Operation Safeguard: Participation in Operation Safeguard activities.	Yes	Yes	#9	Citizen Preparedness	Community Preparedness and Participation	Strengthen Planning and Citizen Preparedness	3.6
Local Information-Sharing Needs Assessments: Development of Local Information-Sharing Needs Assessments.	Yes	Yes	#1	Information-Sharing and Dissemination	Intelligence and Information-Sharing and Dissemination	Strengthen Information-Sharing and Collaboration	3.7
Information-Sharing Equipment: Allowable equipment such as Mobile Data Terminals, License Plate Readers, Livescan, Computers, etc. to enhance information-sharing capabilities.	Yes	Yes	#1	Information-Sharing and Dissemination	Intelligence and Information-Sharing and Dissemination	Strengthen Information-Sharing and Collaboration	3.8
Intelligence Analysts: Hiring of Intelligence Analysts to facilitate information sharing with the NYSIC.	No	Yes	#34	Information-Sharing and Dissemination	Intelligence Analysis and Production	Strengthen Information-Sharing and Collaboration	3.10

Field Intelligence Officer (FIO) Program: Allowable Planning, Training, Equipment, and Organizational (SLETPP) activities related to the FIO program <i>*Equipment must be able to be integrated with existing NYSIC and DHSES equipment.</i>	Yes	Yes	#1	Information-Sharing and Dissemination	Intelligence and Information-Sharing and Dissemination	Strengthen Information-Sharing and Collaboration	3.11
Corrections Criminal Intelligence Program (CCIP): Allowable Planning, Training, Equipment, and Organizational (SLETPP) activities related to the CCIP <i>* Equipment must be able to be integrated with existing NYSIC and DHSES equipment.</i>	Yes	Yes	#1	Information-Sharing and Dissemination	Intelligence and Information-Sharing and Dissemination	Strengthen Information-Sharing and Collaboration	3.11

Goal 4: Strengthen Counter-Terrorism and Law Enforcement

Project Area	SHSP	SLETPP	G&T Code Link	Investment Justification Link	Target Capability Link	National Priority Link	Strategy Link
Tactical Team Support: Allowable Planning, Training, Exercise, Organizational (SLETPP), and Equipment Acquisition activities to support New York's Tactical Teams.	Yes	Yes	#30	Counter-Terrorism and Law Enforcement	Counter-Terror Investigations and Law Enforcement	Strengthen CBRNE Detection, Response, and Decontamination Capabilities	4.1
SCUBA/Dive Team Support: Allowable Planning, Training, Exercise, Organizational (SLETPP), and Equipment Acquisition activities to support New York's SCUBA/Dive Teams .	Yes	Yes	#30	Counter-Terrorism and Law Enforcement	Counter-Terror Investigations and Law Enforcement	Strengthen CBRNE Detection, Response, and Decontamination Capabilities	4.1
Explosive Detection Canine Team Support: Allowable Planning, Training, Exercise, Organizational (SLETPP), and Equipment Acquisition activities to support New York's Explosive Detection Canine Teams.	Yes	Yes	#18	Counter-Terrorism and Law Enforcement	CBRNE Detection	Strengthen CBRNE Detection, Response, and Decontamination Capabilities	4.1
Information Technology Solutions for Law Enforcement: Purchase of specialized Information Technology (IT) equipment to support counter-terrorism initiatives	Yes	Yes	#1	Counter-Terrorism and Law Enforcement	Counter-Terror Investigations and Law Enforcement	Strengthen Information Sharing and Collaboration	4.3

Border Security: Participation in allowable border security activities, including SPIDER Border Operations (SLETPP only), Border Security Planning, Integrated Border Enforcement Teams (IBETs) meetings, etc. Note: All Border Security activities should be coordinated with the NYS Police and U.S. Customs and Border Patrol.	Yes	Yes	#15	Counter-Terrorism and Law Enforcement	Critical Infrastructure Protection	Implement the NIPP	4.6
"Red Team" Exercises: Participation in "Red Team" exercises to test security at critical infrastructure sites.	Yes	Yes	#12	Counter-Terrorism and Law Enforcement	Critical Infrastructure Protection	Implement the NIPP	4.9

Goal 5: Enhance Incident Management and Response Capabilities

Project Area	SHSP	SLETPP	G&T Code Link	Investment Justification	Primary Target Capability Link	National Priority Link	Strategy Link
NIMS: Planning costs associated with the adoption, implementation, and adherence to NIMS compliance requirements, including the implementation of the NIMS Credentialing Framework.	Yes	Yes	#11	Emergency Management	Onsite Incident Management	Implement NIMS/NRF	5.1
Coordinators: Hiring of a part or full-time Training, Exercise, and/or NIMS Coordinator	Yes	Yes	#6, #20, or #11	Emergency Management	Onsite Incident Management	Implement NIMS/NRF	5.1
Training: OT/Backfill and Per Diem costs associated with participation in FEMA/DHS approved training courses (includes training to meet NIMs requirements).	Yes	Yes	#6	Emergency Management	Dependent on Training Course	Dependent on Training Course	5.3
Training Equipment: Purchase of allowable training equipment to facilitate first responder training programs.	Yes	Yes	#6	Emergency Management	Onsite Incident Management	Implement NIMS/NRF	5.3
Institutionalization of Training: Institutionalization of training into local academies and training programs.	Yes	Yes	#6	Emergency Management	Onsite Incident Management	Implement NIMS/NRF	5.3
Approval for Local Training Courses: Identify and develop local training programs to submit to DHS for approval.	Yes	Yes	#6	Emergency Management	Dependent on Training Course	Dependent on Training Course	5.3

Exercises: Development, execution, and evaluation of Homeland Security Exercise and Evaluation Program (HSEEP) compliant exercises, including OT/Backfill for participants.	Yes	Yes	#20	Emergency Management	Onsite Incident Management	Implement NIMS/NRF	5.7
Resource Typing: Conducting resourcing typing activities in accordance with typed resource definitions released by the NIMS Integration Center.	Yes	Yes	#11	Emergency Management	Onsite Incident Management	Implement NIMS/NRF	5.11
Incident Management Teams (IMTs): Allowable planning, training, exercise, and equipment acquisition costs to support the development of New York's Incident Management Teams (IMTs).	Yes	Yes	#5	Emergency Management	Onsite Incident Management	Implement NIMS/NF	5.16
Emergency Operations Center: Enhance State and local Emergency Operations Center (EOC) capabilities through targeted equipment purchases and EOC training efforts	Yes	Yes	#4	Emergency Management	EOC Management	Implement NIMS/NRF	5.17
Urban Search and Rescue (USAR) Team Support: Allowable Planning, Training, Exercise, and Equipment Acquisition activities for New York's USAR Teams.	Yes	Yes	#30	WMD/HazMat Response and Decontamination	Search and Rescue	Strengthen CBRNE Detection, Response, and Decontamination	5.19

Goal 6: Strengthen Communications and Emergency Alert Capabilities

Project Area	SHSP	SLETPP	G&T Code Link	Investment Justification Link	Target Capability Link	National Priority Link	Strategy Link
Planning and Governance: Development of communications protocols and solutions, governance structures, needs assessments, mutual aid plans, etc. in support of emergency interoperable communications *Must be in accordance with the SCIP and the DHS/Office of Emergency Communications (OEC) National Interoperable Communications Plan (NECP)and take into consideration the State's interoperability governance structure.	Yes	Yes	#14	Communications and Emergency Alerting	Communications	Strengthen Interoperable Communications Capabilities	6.2 (Governance), 6.4 (Planning)
Equipment Acquisition to Support Enhanced Communications: Build-out of new communications systems, specifically the development of regional and multi-jurisdictional area systems *Must be in accordance with the SCIP and follow the SAFECOM guidance.	Yes	Yes	#14	Communications and Emergency Alerting	Communications	Strengthen Interoperable Communications Capabilities	6.7

Mobile Command Vehicles: Purchase of mobile command vehicles to enhance incident management capabilities.	Yes	Yes	#14	Emergency Management	Communications	Strengthen Interoperable Communications Capabilities	6.9
Communications Training and Exercises: Training (e.g. Communications Leader (COML) courses) and exercise opportunities to enhance emergency interoperable communications capabilities for first responders, communications technicians, and leaders.	Yes	Yes	#14	Communications and Emergency Alerting	Communications	Strengthen Interoperable Communications Capabilities	6.10 (Training), 6.12 (Exercises)
Sustainment: Maintenance (modification/improvements) of existing emergency interoperable communications systems and preparing them for new narrow banding standards *Must be in accordance with the Statewide Communications Interoperability Plan (SCIP).	Yes	Yes	#14	Communications and Emergency Alerting	Communications	Strengthen Interoperable Communications Capabilities	6.7

Goal 7: Strengthen Emergency Planning, Citizen, and Community Preparedness

Project Area	SHSP	SLETPP	G&T Code Link	Investment Justification	Target Capability Link	National Priority Link	Strategy Link
Planning: Update and/or develop emergency management plans, including Hazard Mitigation Plans, Comprehensive Emergency Management Plans (CEMPs), Continuity of Operations Plans (COOPs), Volunteer Management Plans, Mass Fatality Plans, Regional Catastrophic Planning, Mass Care/Shelter Plans, etc.	Yes	Yes	#23	Emergency Management	Planning	Strengthen Planning and Citizen Preparedness	7.1 (CEMP), 7.2 (COOP), 7.12 (Volunteer Management), etc.
Long-Term Housing Plans: Local development of Long-Term Housing Plans, highlighting an assessment of baseline capabilities (especially at a regional level) and the identification of risk reduction measures, especially those targeted towards special needs populations (elderly, children, families with pets).	Yes	No	#23	Sheltering and Disaster Housing	Citizen Evacuation and Shelter-in-Place	Strengthen Planning and Citizen Preparedness	7.1

Special Needs Populations: Enhancement of preparedness for individuals that may require additional assistance (e.g. those who have disabilities, those living in institutional settings, the elderly, those from diverse cultures, those with limited English proficiency/non-English speaking, children, those accompanied by service animals, or those who may be transportation disadvantaged).	Yes	No	#9	Citizen Preparedness	Community Preparedness and Participation	Strengthen Planning and Citizen Preparedness	7.2
For Profit Sector: Recruitment of the for profit sector to support Citizen Corps Councils (CCCs) and other citizen preparedness activities, including representation of for profits/local industry and business on CCCs .	Yes	No	#17	Citizen Preparedness	Community Preparedness and Participation	Strengthen Planning and Citizen Preparedness	7.5
Animal Emergency Preparedness: Funds may be used to develop or enhance pet evacuation and sheltering plans as well as train and exercise response personnel and CART members.	Yes	No	#23	Food and Agricultural Safety and Defense	Mass Care, Citizen Evacuation and Shelter-in-Place	Strengthen Planning and Citizen Preparedness	7.6
Animal Evacuation Shelters: Grantees may purchase allowable equipment to operate temporary animal evacuation shelters and develop companion animal sheltering equipment caches to support disaster response activities.	Yes	No	#26	Food and Agricultural Safety and Defense	Mass Care, Citizen Evacuation and Shelter-in-Place	Strengthen Planning and Citizen Preparedness	7.7
Shelter and Disaster Housing Asset and Services Management: Planning costs associated with identifying and cataloguing disaster housing and sheltering assets, and other human services related information, within the applicant's jurisdiction, in order to help facilitate a better response to the sheltering/housing needs of victims during an all-hazards incident.	Yes	No	#26	Sheltering and Disaster Housing	Citizen Evacuation and Shelter-in-Place	Strengthen Planning and Citizen Preparedness	7.7
Case Management Tracking: Planning costs associated with the identification/needs assessment of mechanisms that will better facilitate the delivery and tracking of human services across a diverse field of providers, especially to help aid post-incident case management of such services to special needs populations (elderly, children, families with pets).	Yes	No	#23	Sheltering and Disaster Housing	Citizen Evacuation and Shelter-in-Place	Strengthen Planning and Citizen Preparedness	7.7

Animal Response Teams: Funds may be used to organize and credential volunteers to participate in County Animal Response Teams (CARTs).	Yes	No	#10	Food and Agricultural Safety and Defense	Mass Care, Citizen Evacuation and Shelter-in-Place	Strengthen Planning and Citizen Preparedness	7.8
Veterinary Emergency Corps/Ag Sentinel Corps: Funds may be used to organize and credential volunteers to participate on Veterinary Emergency Corps and Ag Sentinel Corps.	Yes	No	#2	Food and Agricultural Safety and Defense	Food and Agricultural Safety and Defense	Implement the NIPP	7.8
Volunteer Integration: Integration of volunteers, in particular the related partner and affiliated programs of Citizen Corps into County Emergency Management activities.	Yes	No	#10	Citizen Preparedness	Community Preparedness and Participation	Strengthen Planning and Citizen Preparedness	7.9
Disaster Leave Law Volunteer Recruitment/Training: Recruitment and training of local municipal employees to respond to disasters in accordance to NYS's Disaster Leave Law.	Yes	No	#10	Sheltering and Disaster Housing	Volunteer Management and Donations	Strengthen Planning and Citizen Preparedness	7.10
Citizen Corps Councils (CCCs): Development or enhancement of CCC's.	Yes	No	#17	Citizen Preparedness	Community Preparedness and Participation	Strengthen Planning and Citizen Preparedness	7.11
Public Outreach Campaigns: Development or enhancement of public outreach campaigns (print, TV, radio, etc.).	Yes	Yes	#9	Citizen Preparedness	Community Preparedness and Participation	Strengthen Planning and Citizen Preparedness	7.14

Goal 9: Support Health Emergency Preparedness

Project Area	SHSP	SLETPP	G&T Code Link	Investment Justification	Primary Target Capability Link	National Priority Link	Strategy Link
Local Health Department (LHD) Staff: Hiring/sustainment of County LHD Staff. See also DOH LHD Deliverables for specifics.	Yes	No	#16	Health Emergency Preparedness	Planning	Strengthen Medical Surge and Mass Prophylaxis Capabilities	9.1

<p>Planning: Maintain a planning capacity at LHDs to ensure Public Health Emergency Preparedness and Response Plans are up-to-date that include SNS, Biological, Chemical, and Radiological Annexes. LHDs will develop and test Public Health Emergency Preparedness and Response Plans.</p>	Yes	No	#23	Health Emergency Preparedness	Planning	Strengthen Medical Surge and Mass Prophylaxis Capabilities	9.1
<p>Mass Prophylaxis: LHDs will maintain and enhance the their mass prophylaxis capabilities by developing alternate methods of dispensing. LHDs will continue to develop alternate methods of medical countermeasures distribution, addressing the needs of populations unable to receive medications at traditional PODs to include special needs populations.</p>	Yes	No	#13	Health Emergency Preparedness	Mass Prophylaxis	Strengthen Medical Surge and Mass Prophylaxis Capabilities	9.2
<p>Exercises: LHDs will conduct mass prophylaxis exercises that include the use of medical volunteers and electronic patient tracking systems.</p>	Yes	No	#13	Health Emergency Preparedness	Mass Prophylaxis	Strengthen Medical Surge and Mass Prophylaxis Capabilities	9.6

***Note: SLHD funding should be used in support of defined deliverables released by the NYS Department of Health (DOH).**

Goal 10: Enhance Cyber Preparedness Capabilities

Project Area	SHSP	SLETPP	G&T Code Link	Investment Justification Link	Target Capability Link	National Priority Link	Strategy Link
Data Loss Prevention: Purchase of equipment to monitor information flow; provide educational opportunities to employees dealing with the classification, security and inventory of sensitive data; maximize encryption of data; and secure databases.	Yes	Yes	#3	Cyber Security	Critical Infrastructure Protection	Implement the NIPP	10.5
Security of Data on Mobile Devices: Acquisition of technology to protect data on mobile devices (which are vulnerable to cyber attack or threat).	Yes	Yes	#3	Cyber Security	Critical Infrastructure Protection	Implement the NIPP	10.5
Vulnerability Scans and Needs Assessments: Identification of capability gaps in cyber systems via vulnerability scans and needs assessments and the mitigation of gaps through policy revision and/or equipment acquisition.	Yes	Yes	#3	Cyber Security	Critical Infrastructure Protection	Implement the NIPP	10.5
Cyber Security Planning: Development of plans, policies, and procedures informed from the capability and vulnerability gaps that have been highlighted by the needs assessments and vulnerability scans.	Yes	Yes	#3	Cyber Security	Critical Infrastructure Protection	Implement the NIPP	10.3
